

Cardiometabolic Forum Inaugural Meeting

FREE registration – Earn 5 CPD points

Lipids and Cardiovascular Disease

Improving practice and clinical outcomes

Thursday 24th November 2011
10am – 4pm

Royal Pharmaceutical Society,
1 Lambeth High Street, London SE1 7JN

Chairpersons: **Dr Dermot Neely and Dr Henry Purcell**

Organised by British Journal of Cardiology and HEART UK

Sponsored by

Overview:

An exciting one-day programme covering everything you need to know about lipids management to reduce cardiovascular risk with an interactive clinical cases session for participants to apply the theory to real-world clinical practice.

- Lipids and atherosclerosis, from plate to plaque!
Professor Kausik Ray, St George's Hospital, University of London
- Dyslipidaemias, diagnosis and clinical assessment
Dr Dermot Neely, Royal Victoria Infirmary, Newcastle
- Lipid modifying therapy – applying principles in practice
Dr Adie Viljoen, Lister Hospital, Stevenage
- Evolving evidence and guidelines in lipid management
Dr Jane Skinner, Royal Victoria Infirmary, Newcastle
- Beyond statins – addressing residual risk
Dr John Reckless, University of Bath
- Clinical cases – interactive session
Dr Henry Purcell, Royal Brompton Hospital, London
Dr Rob Cramb, University Hospital Birmingham NHS Foundation Trust

Free Registration – limited places

Suitable for all for medical trainees in secondary care or general practitioners with an interest in cardiology, lipids or metabolic medicine.
